

VEHICLE PRESENTATION

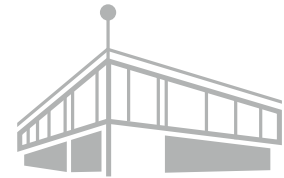

At Cafe Moskau there are five areas which are predestined for vehicle presentations. Indoor it is Almaty hall as well as room Duschanbe and outdoor it is Rosegarten, Atrium and the space at the main entrance (west) of Cafe Moskau.

To guarantee an optimal pressure distribution the vehicle or at least the wheels need to be placed on pressure distribution plates (minimum 1 m²). The permissible floor load is 500 kg per m².

Once in position it is necessary to disconnect the battery. Functions such as door opener, alarm system etc. may need a separate battery.

Vehicles with combustion engine needs to be emptied and filled with, i.e. nitrogen to prevent any kind of risk. Let us know if you need help to do so. We gladly connect you with our partner.

BERLIN

PRESENTATION POSITIONS

OUTDOOR

- P1 - Rosengarten (fenced)
- P2 - Atrium (within the building)
- P3 - West entrance (outside of the building)

INDOOR

- P4 - room Duschanbe
- P5 - Almaty hall

If the vehicle is placed at a unguarded spot it is advisable to keep the vehicle closed.

It is necessary to bring an additional fire extinguisher and place it right next to the vehicle. Per vehicle an additional fire security guard will be planned.

All emergency exits need to be kept free at all times.

ACCESS & PRESENTATION POSITIONS

P1 - ROSENGARTEN

The access to Rosengarten is via the gate at Schillingstraße. The dimensions* of the gate are the following: width 3,30 m x height 2,99 m.

It is not allowed to drive or park in the area of the water feature and the flowerbeds.

P2 + P4 - ROOM DUSCHANBE & ATRIUM

All presentation positions are reachable by the gate of Rosengarten. The doors* of room Duschanbe (width 2,25 m x height 2,17 m) give access to the room itself as well to Atrium.

For higher presentation objects we can open the fanlight windows of room Duschanbe and will get a maximum height of 3,30 m*. The handling will be extra charged.

P5 - ALMATY HALL

From Rosengarten, through room Duschanbe and Atrium you reach Almaty hall. A huge sliding glass door (width 2,70 m x height 3,87 m) is the access to Almaty hall.

*All measurements are approximate.

ACCESS & PRESENTATION POSITIONS

P5 - WEST ENTRANCE

Probably the most prominent presentation area is located in front of the main entrance of Cafe Moskau. This area can be reached via Schillingstraße and offers enough space for e.g. vehicles and a press wall.
